

15-3204/P

Briefing

12 JUN 1965

General Bernard A. Schriever  
Commanding General  
United States Air Force Systems Command  
Andrews Air Force Base  
Washington, D. C.

Dear Bennie:

I have discussed with my senior officials your kind offer to provide a briefing on the approach AFSC is taking in researching "Emotional Determinants of Action" (EDA). I find that a number of our components would be interested, and I have asked Dr. Albert D. Wheelon, my Deputy Director for Science and Technology, to coordinate our interests and to develop mutually satisfactory arrangements for the briefing with General Richardson.

Your recommendation that the briefing be conducted this week raises some difficulties. A number of the people who are most interested in learning of your work in EDA are absent at this time, and I believe it would be most convenient for all concerned if the meeting is postponed to the week of 28 June. I am not certain that I will be able to participate personally, but I do want to express my appreciation to you for bringing this interesting area of research to my attention and for your offer to share the benefits of your work with us.

"See try to be there!"  
R"

Sincerely,

[(Signed)] W. F. Raborn
